

Impact Report 2022

A MESSAGE FROM OUR FOUNDER

We continue to help those most in need when it comes to our feline friends by catering to severe medical cases, special needs kitties, and changing the outcome for as many as we can! We work to reduce euthanasia rates for high-risk felines in our shelters throughout Utah, serving as a known resource for those most likely to not be adopted due to medical or behavioral challenges.

A YEAR WITH UNIQUE CHALLENGES

In 2022, we answered more calls, emails and social media messages than ever before! We were able to successfully keep 42 cats in the home by providing food, medical care, or behavioral assistance.
